I wanted to take a moment to thank you for bringing your fantastically creative and educational production to our school. We were all amazed by your skill and your ability to teach us such valuable facts while doing such advanced juggling! We were delighted to have the opportunity to watch you at work.

The students truly enjoyed the show. The teachers have been walking around in awe since the show – they are telling me they have never seen these students pay such close attention before.

One teacher claims she's going to take juggling classes because she's "seen the light." She now believes she's found the secret to an orderly class! It was so clear watching your presentation, and our student audience – your show really hit home for our population.

Thank you, so much for the time you spend bringing this powerful production to schools. Your value is priceless.

I hope to see you again next year.

Sincerely,

Jessica Fausty
